

One paired family. Two scales of presence. Built to last.

Inter Tight handles every display surface — logotype, hero, headings, eyebrows, UI labels, dashboard numbers. Inter handles every paragraph and inline element. JetBrains Mono carries code. The system fallback resolves to the user's native UI font in any context where the web fonts don't load. Twenty-four tokens, three families, one register from favicon to footnote.

DISPLAY

Inter Tight

Logotype, hero, h1–h4, eyebrows, UI labels, table headers, badges, dashboard numerals. Variable wght 100–900.

BODY

Inter

Paragraphs, em, strong, links, lists, blockquote, dl, footnote, figure caption. Variable wght 100–900 with italics.

MONO

JetBrains Mono

Inline code, code blocks, file paths, hex codes, technical identifiers. Tabular figures, ligatures off in tabular contexts.

01

Hero — two scales of presence

New in v2.0 · big for landings, medium for inner pages

.TYPE-HERO · INTER TIGHT 300 · CLAMP(56PX, 9VW, 112PX)

Where light meets architecture.

A studio working with Turkey's leading architects, interior designers, and lighting practitioners since 2009. Twelve international brands, one specification discipline.

.TYPE-HERO-MD · INTER TIGHT 400 · CLAMP(40PX, 6VW, 72PX)

Premium luminaires, mid-tier pricing.

Pataraz delivers project-grade fixtures without the project-grade markup. Designed for professionals; specified to last.

WHEN TO USE WHICH

.type-hero — Big Hero

.type-hero-md — Medium Hero

	Landing pages, brand portfolio pages, launches, press announcements. The page-defining headline. Inter Tight at <i>weight 300</i> with tight tracking gives a couture feel without going fragile. Pair with optional eyebrow + italic deck. One per page, maximum.	Inner-page headers, section openers, feature blocks. A confident statement that yields the page-defining role to <i>.type-hero</i> . Weight 400 (Regular) gives slightly more presence at smaller scale; tracking eased to -0.032em for legibility.

02

Type scale — every token, in order

24 tokens · 3 families · 1 system

.type-hero	112 / 0.96 / 300	Big hero.
.type-hero-md	72 / 1.02 / 400	Medium hero.
.type-h1	44 / 1.05 / 500	Page title — H1.
.type-h2	24 / 1.18 / 500	Section break — H2.
.type-h3	18 / 1.30 / 500i	<i>Subsection — H3, italic.</i>
.type-h4	12 / 1.4 / 700	EYEBROW / LABEL — H4
.type-body	16.5 / 1.65 / 400	Body text reads at length without fatigue. Inter is the most rigorously screen-engineered open-source sans, with hinted glyphs, optical sizing, and gold-standard Latin Extended including Turkish. <i>Italic</i> and bold are inline modifiers; the <u>link</u> is the sole brand expression.
.type-pullquote	26 / 1.22 / 400	A pull quote sits in display family at body weight.
.type-footnote	12.5 / 1.55 / 400	Footnotes use body family, ink-faint, with brand-color references.
code / .type-mono	13.5 / 1.55 / 400	font-family: var(--display);

03

Logotype — Inter Tight Light, all four brands

16 / 32 / 64px · symbol = 0.98em · gap = 0.4em

Işığın mimariyle buluştuğu yer.

2009'dan bu yana Türkiye'nin önde gelen tasarım stüdyolarıyla. Yazan: Emre Güneş, Ağustos Teknoloji.

Ağustos Teknoloji, on iki uluslararası aydınlatma markasının Türkiye temsilcisidir. Soraa, CoeLux, Xicato ve diğer markalarımızla birlikte; mimar, iç mimar, peyzaj mimarı ve aydınlatma tasarımcılarına proje bazında **danışmanlık** sunuyoruz.

Yaklaşımımız basit: *doğru ışık, doğru yerde, doğru zamanda*. Bu nedenle her projede **spesifikasyon disiplini** ve uzun vadeli teknik destek birlikte yürür.

Çalışma Yaklaşımımız

Her proje, mekânın ihtiyaçlarına özgü bir okumayla başlar. Spesifikasyon süreci üç adımda ilerler:

1. Aydınlatma briefinin oluşturulması
2. [Ürün önerileri](#) ve teknik dosyaların paylaşımı
3. Uygulama desteği ve devreye alma

CoeLux · Yapay Gökyüzü

CoeLux, mekâna gerçek gökyüzü algısı taşıyan benzersiz bir teknolojidir. Modüller **CRI > 95** değeriyle, 240 m²'lik salonlarda 850 lümen/m² seviyesinde çalışır. CO₂ emisyonu konvansiyonel sistemlere göre belirgin biçimde düşüktür.

İyi aydınlatma, fark edilmediği zaman en iyisidir.

— RICHARD KELLY, 1952

“Aydınlatma, mimarinin sessiz dilidir.

BAYİLİK FİYATLARI

CoeLux LS modülü: ~~3.500 ₺~~ 2.800 ₺ (Mayıs kampanyası, %20 indirimli). Detaylar için **katalog talebinde** bulunabilirsiniz.

PROJE GÖRSELİ

Token-to-face map

Which family does which job

The 24 tokens, mapped to faces.

Display drives every "designed" surface — logotype, hero, headings, eyebrows, UI labels, KPI numerals, badges. Body drives every paragraph and inline element. Mono drives code. No token uses more than one family. The system fallback resolves to native UI fonts when web fonts don't load — designed degradation, not breakage.

INTER TIGHT (DISPLAY)

.type-hero	big hero · 112px / 300
.type-hero-md	medium hero · 72px / 400
.type-h1	page title
.type-h2	section
.type-h3	subsection (italic)
.type-h4	eyebrow / label
.type-pullquote	editorial highlight
.lockup__name	wordmark · 300
UI labels	forms, buttons, tabs
UI numerals	stats, KPIs, dashboards
UI badges	status, tags, pills
table th	column headers

INTER (BODY)

.type-body	paragraph
.type-hero-deck	italic deck
em	italic / deck / byline
strong	bold emphasis
a	link
sub / sup / s	inline modifiers
.type-blockquote	attributed quote · italic
.type-list-ol	ordered list
.type-list-ul	unordered list
.type-dl	definition list
.type-figure figcaption	image caption
.type-footnote	notes / sources
table td	data cells

JETBRAINS MONO

code (inline)	technical values
.type-code-block	multi-line code
file inputs	paths, hex, IDs
section .num	section markers

FALLBACK STRATEGY

--display	Inter Tight → Inter → system
--body	Inter → -apple-system → Segoe UI → Roboto → Helvetica → Arial
